CTCN and Climate Technology Priorities

- Agriculture
- Carbon Fixation & Abatement
- Energy Efficiency
- Forestry
- Industry
- Renewable Energy
- Transport
- Waste Management

CTCN Services

TECHNICAL ASSISTANCE

KNOWLEDGE SHARING

COLLABORATION & NETWORKING

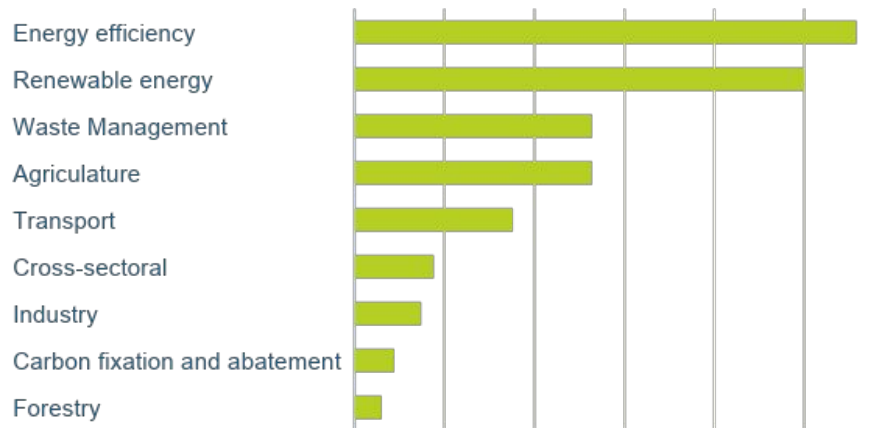

- Agriculture & Forestry
- Coastal Zones
- Early Warning & Environmental Assessment
- Human Health
- Infrastructure & Urban Planning
- Marine & Fisheries
- Water

Technical Assistance Projects 2014 - 2021

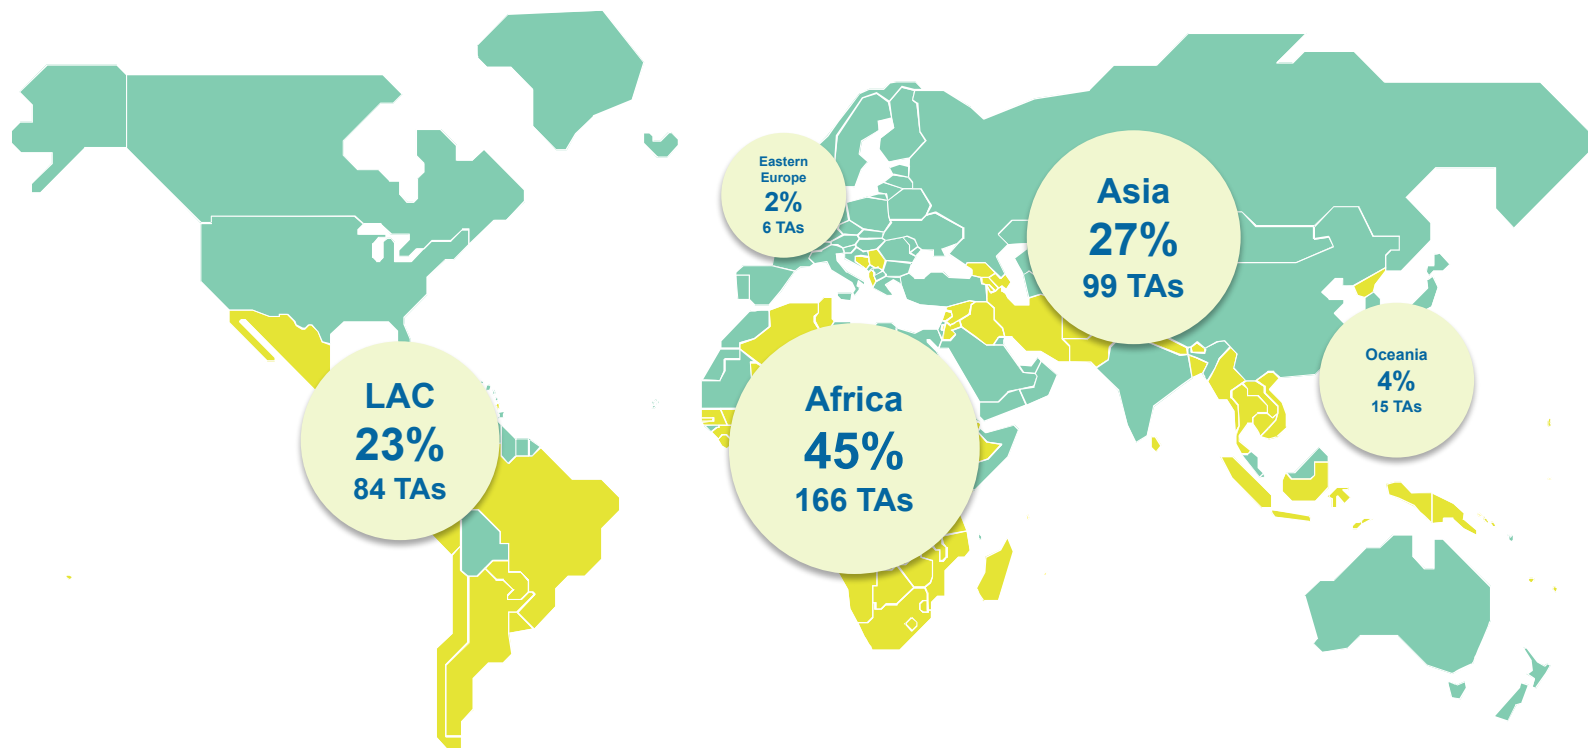

Sectoral distribution of requests mitigation

Sectoral distribution of requests adaptation

332 TA requests received from 108 countries

Joint TEC-CTCN Report on NDCs and Technology Needs (2021)

- Analysis of Nationally determined contributions received as of 31 December 2020 globally
- Information on technology needs mentioned in the updated NDCs, including examples and success stories
- Link:
https://unfccc.int/ttclear/misc_/StaticFiles/gnwoerk_static/techandndc/c93353c94cfc4a1daa013f27ea92df2f/bdc9d4fab72f44c283a0f35fb72ecc8e.pdf

Relevance of Technology in Updated NDCs

- Most NDCs (90 per cent) include information on technology
- 93 per cent include only qualitative information on technology aspects, while 37 per cent also include quantitative information

TNA Adaptation Priorities, Africa

TNA ADAPTATION PRIORITY SECTORS, 31 AFRICAN COUNTRIES

Number of sectors

TECHNOLOGIES FOR ADAPATATION IN THE WATER SECTOR (27 AFRICAN COUNTRIES)

Number of technologies

TECHNOLOGIES FOR ADAPTATION IN THE AGRICULTURE SECTOR (27 AFRICAN COUNTRIES)

Number of technologies

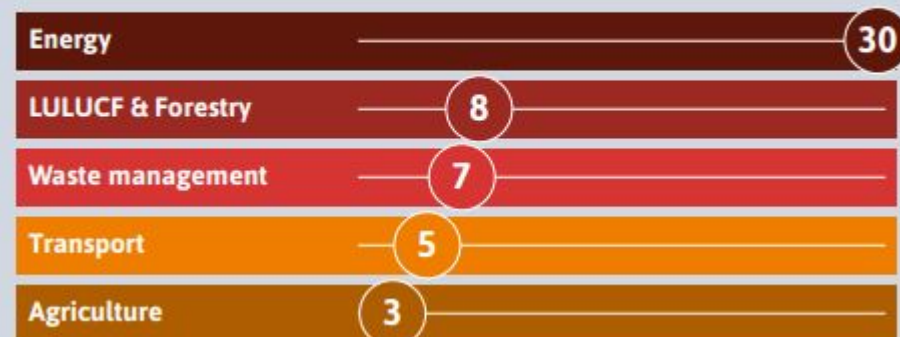

TNA Mitigation Priorities, Africa

TNA MITIGATION PRIORITY SECTORS, 31 AFRICAN COUNTRIES

Number of sectors

TECHNOLOGIES FOR MITIGATION IN THE ENERGY SECTOR (26 COUNTRIES)

Number of technologies

Technology and capacity building

- Lack of data availability to implement technologies in an informed way
- Economic and social viability of technologies is crucial for sustained impact
- No one-size-fits-all approach
- Lack of alignment and integration of climate change into national and sectorial policies hinder the implementation of NDCs

Regulations and governance

- Insufficient monitoring and evaluation systems
- Absence of clear policies on climate change, as well as policies that engage the private sector in climate projects

Financing

- Lack of financing, in particular for most vulnerable countries
- Inadequate knowledge and awareness on climate change hinder African countries from mobilizing resources

Clarity on priority sectors and technologies

- TNAs and NDCs provide clarity on priority sectors and technologies, as well as support needed along the technology development cycle

Clarity on funding gaps

- Analyses highlight regions and sectors where more financing is needed due to increased vulnerability
- Targeted financing can be provided

Collaboration and engagement opportunities

- Mechanisms for financing and technical assistance in place with large networks
- South-South-Collaboration as a vehicle to effectively transfer technologies and knowledge within a region with similar environments and needs
- Further engagement of private sector
